

Island Advisory Council Meeting of April 21, 2010

Location: CBITD Meeting Room at 4PM – 5PM

Present: Mike Murray, Island Liaison; Bob Howard from Cliff Island; John Condon from Great Diamond Island, Nancy Ansheles from Little Diamond Island and Rob Tiffany from Peaks Island.

Anna Cutter made a presentation looking for census workers from the islands to complete the follow-up process. Though the deadline was April 23<sup>rd</sup>, she can be reached at 207 228-7900 for further information.

FEMA's initial report is being prepared. Visits have been made to the islands to check out tree damage from the latest storm. Grants have been written to obtain funding for Peaks and Cushing Islands cleanup efforts. One important difference from the Patriots Day Storm efforts is that private property can be accessed this time with the permission of the landowner. It is anticipated that multiple crews on multiple islands will be employed possibly beginning in late Summer.

Plans are progressing for heavy item pickup on all the city islands with the exception of Peaks Island which has the transfer station available.

The hazardous waste pickup program will be held this Summer and is scheduled for August. Specific dates will be announced at a later date.
