

Zoning 101

On Wednesday, August 6, 2008 at 7pm at the community center, the Peaks Island Council will present Zoning 101. This presentation will outline what the current zoning is on Peaks Island and how we got to this point. If you want to learn more about setbacks, height allowances and what the different zones on the island are as well as words like permitted use and conditional use, then put it on your calendar for something a little different for an August evening.
